

Oracle Communications Billing and Revenue Management Services

Oracle Communications BRM Software is a leading global provider of billing and revenue management solutions for the communications and media industry.

Covalense has recently built OCBRM consulting practice with a pool of senior consultants having experience in core BRM product development, end-to-end onsite Telco implementations for several reputed customers around the world. The OCBRM excellence center at Covalense is managed by ex Oracle Director who was instrumental in building the Portal/Oracle CGBU division in India, Bangalore from ground up heading the development organization, responsible for evolving the product enhanced solution footprint by managing several OCBRM release cycles starting Portal 6.2 release in his tenure at Portal/Oracle CGBU for 7years. Our team (OCBRM Engineers/Architects) has a range of 4 to 7 years experience in OCBRM implementations, BRM product development and managed several BRM implementations end to end onsite very successfully. Many of our senior consultants are from the original Portal Software that was later acquired by Oracle. As a good value proposition to customers, Covalense assures to offer the best of breed and cost effective services by providing the experts in OCBRM product implementations and development

Covalense is committed in expanding our strengths by carefully identifying the right skill set based on the customer needs in OCBRM product space. Our team has hands on OCBRM implementations across Australasia and Europe for Telecoms such as Vodafone, Orange, Mobily, PCCW, Atria etc.
